Systems design obsessive who dives deep into economy design, combat feel, and progression loops with the technical ability to prototype and ship what I conceive.

I design the spreadsheets that make players stay up too late.

WORK EXPERIENCE

Studio Reborne **Dec 2023 – Present**
Founder, Game Designer *Denver, CO*

- Authored the GDD and designed systems for Salt Sweeper, an upcoming Steam release, building loot tables and balancing weapons, enemies, and economy across 6 playtest cycles in GameMaker.
- Shipped Simple Noise Generators, a C++ Unreal Engine plugin with **75k+ downloads**, a 4.7-star rating on Fab, and an 82-member Discord community.
- Wrote and produced game design YouTube videos on systems design and design philosophy, reaching **1.6M views** and 7k subscribers.

GameReady.dev **Aug 2026 – Present**
Unreal Engine Developer & Instructor *Remote*

- Delivered Unreal Engine 5 gameplay systems across multiple client projects, including gameplay scripting and in-game balancing for an undisclosed mobile game.
- Mentored students in 1:1 sessions on game design, level design, Blueprints, C++, and prototyping workflows.

Zyndrax **Jul 2025 – Jul 2026**
Axima Game Designer *Remote*

- Designed and built two levels for a **20+ person dev team** in Unreal Engine, applying pacing theory, breadcrumbs, and verticality to guide player flow through puzzle and exploration spaces.
- Implemented three distinct puzzle types into the ruins level, leveraging cause and effect chains, golden path lighting, and escalating complexity to give the players an intuitive teach-test structure.
- Developed a tool for procedurally generating level rooms used in prototyping and shipping, enabling rapid iteration on the level layout and room placement.

iD Tech **Jun 2026 – Jul 2026**
Game Design Instructor *Denver, CO*

- Taught weekly classes of 6-12 students over 7 weeks, delivering curriculum covering game design theory, greyboxing, design document authoring, player psychology, and engine fundamentals, adapting instruction and content to the student skill level and creative direction.

Bravo Media **Mar 2023 - Aug 2024**

Unreal Engine Designer *Remote*

- Delivered a real-time optimized digital double for Usher's production team and a 10-minute KPMG cinematic in a 2-week turnaround, using Unreal Engine, mocap animation, and cloth physics.

Undisclosed Client **Nov 2022 – June 2024**

Game Designer *Remote*

- Designed a wagon leveling system for a Vampire Survivors-style roguelike, balancing upgrade paths, combat statistics, passive abilities, and upgrade economy across 10 wagon types and 14 perks.
- Built a system to procedurally generate a hex-based world for our 2.5D environment, efficiently delivering the 6 vertical slices across playtesting sessions of 10+ players.

Point Link Force, LLC **Aug 2019 – July 2023**

Co-Founder, Game Designer *Denver, CO*

- Designed PHASE, an RPG with cross-functioning genre mechanics where players gain abilities and combine them to solve puzzles of escalating difficulty – placing **2nd nationally** at TSA Game Design out of 1,000+ competing teams.
- Designed Cowboy Coots in Unreal Engine for the Ludwig Jam 2023, winning 1st Place Visuals out of 250 entries as a 2-person team.
- Designed Alabastard for the Unreal MegaJam 2022, earning the Kitbasher Award – a jury prize from the Epic Games team – out of 500+ entries.

OTHER PROJECTS

Apex Legends LTM Analysis | Solo | Systems Design Case Study — 2026 **2026**

Cat-Tastic | Team Size: 3 | 48-Hour Game Jam **2026**

EDUCATION

Southern New Hampshire University **2024 - May 2027 (Expected)**

B.S. in Computer Science

Maintained a 3.9 GPA & Honor Roll while working full-time across multiple shipped commercial projects.

SKILLS & INTERESTS

- **Skills:** Unreal Engine 5, Blueprints, C++, GameMaker Studio 2, GML, Python, Unity, Visual Studio, JIRA, Fab, Systems Design, Systems Balancing, Gameplay Scripting, Rapid Prototyping, Loot Tables, Level Design, GDD Authoring, Playtesting & Iteration, Project Management (Scrum), Creative Writing, Curriculum Development, XR Development
- **Interests:** Apex Legends, Game Design Content Creation (1.6M views), Tabletop Gaming, Weightlifting
